PAPYRUS Collection

PAPYRUS

When we think of the papyrus plant, we think of a paper surface for writing and illustration. This vital and natural resource also has a vast amount of uses for everyday life in ancient Egypt.

It was not only used for medicine, food and rope; papyrus was also used to weave sandals, baskets, drinking vessels, webbing for beds, floor mats, curtains and a variety of other textiles.

This collection is inspired by the extensive benefits of this essential plant. Browns and sage colors are used depicting the leaves and stalk when they are laid out to dry in the sun, and textures of soft and complex mingled curves and shy amounts of shimmer are revealed using threads of gold and silver metallic throughout the designs.

PAPYRUS is featured in Durkan's innovative Definity technology which redefines luxury performance with patterning and textures never before seen in the industry. Enhanced surface detailing provides more than twice the definition of any other high-end hospitality carpet. Durkan's exclusive technology creates precision sculpted dimension for incredible visual and tactile experiences.

Product Guide

Papyrus is available in Definity, PDI and CYP constructions. Each product type utilizes a different manufacturing process which can yield variations in color and texture. Please refer to the guide below for specific color information.

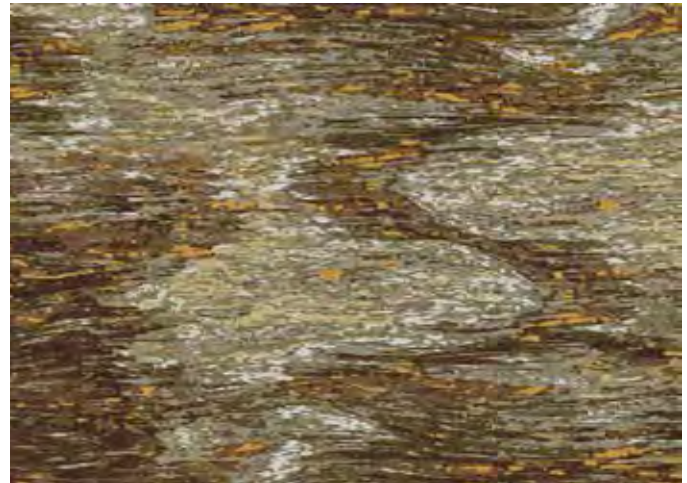

Definity

Durkan's innovative Definity technology is available in up to 12 colors and features our unique precision sculpted technology which explores and emphasizes dimensional effects.

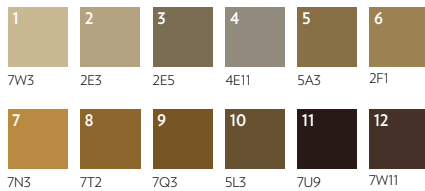

Shown, right and opposite page: QTW49845

PDI

Durkan's Precision Dye Injected (PDI) construction offers a range of patterns available in 12 colors.

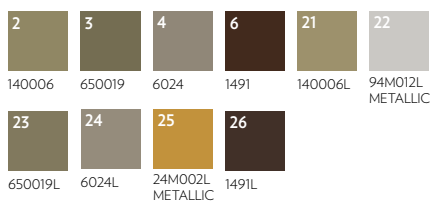

Shown, right: D49875

CYP

Durkan's Computer Yarn Placement (CYP) construction offers a range of patterns available in 6 colors.

Shown, right: UT49876

C: Cut, L: Loop, LL: Lower Loop, DD: Double Density
