

Terasu

ShawContract®

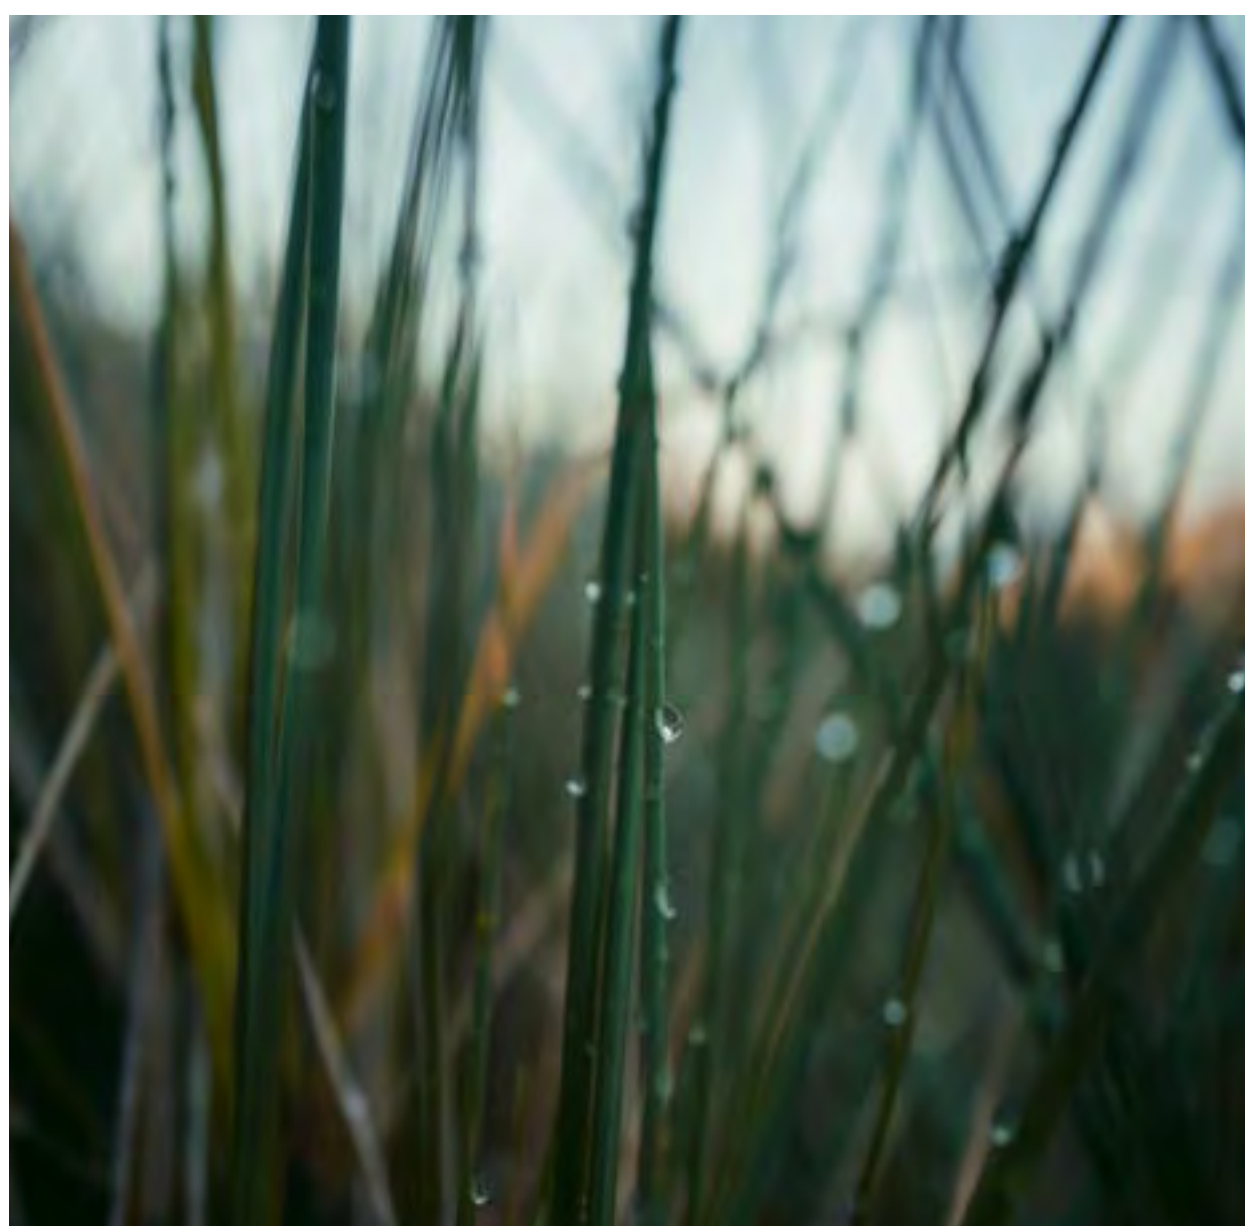

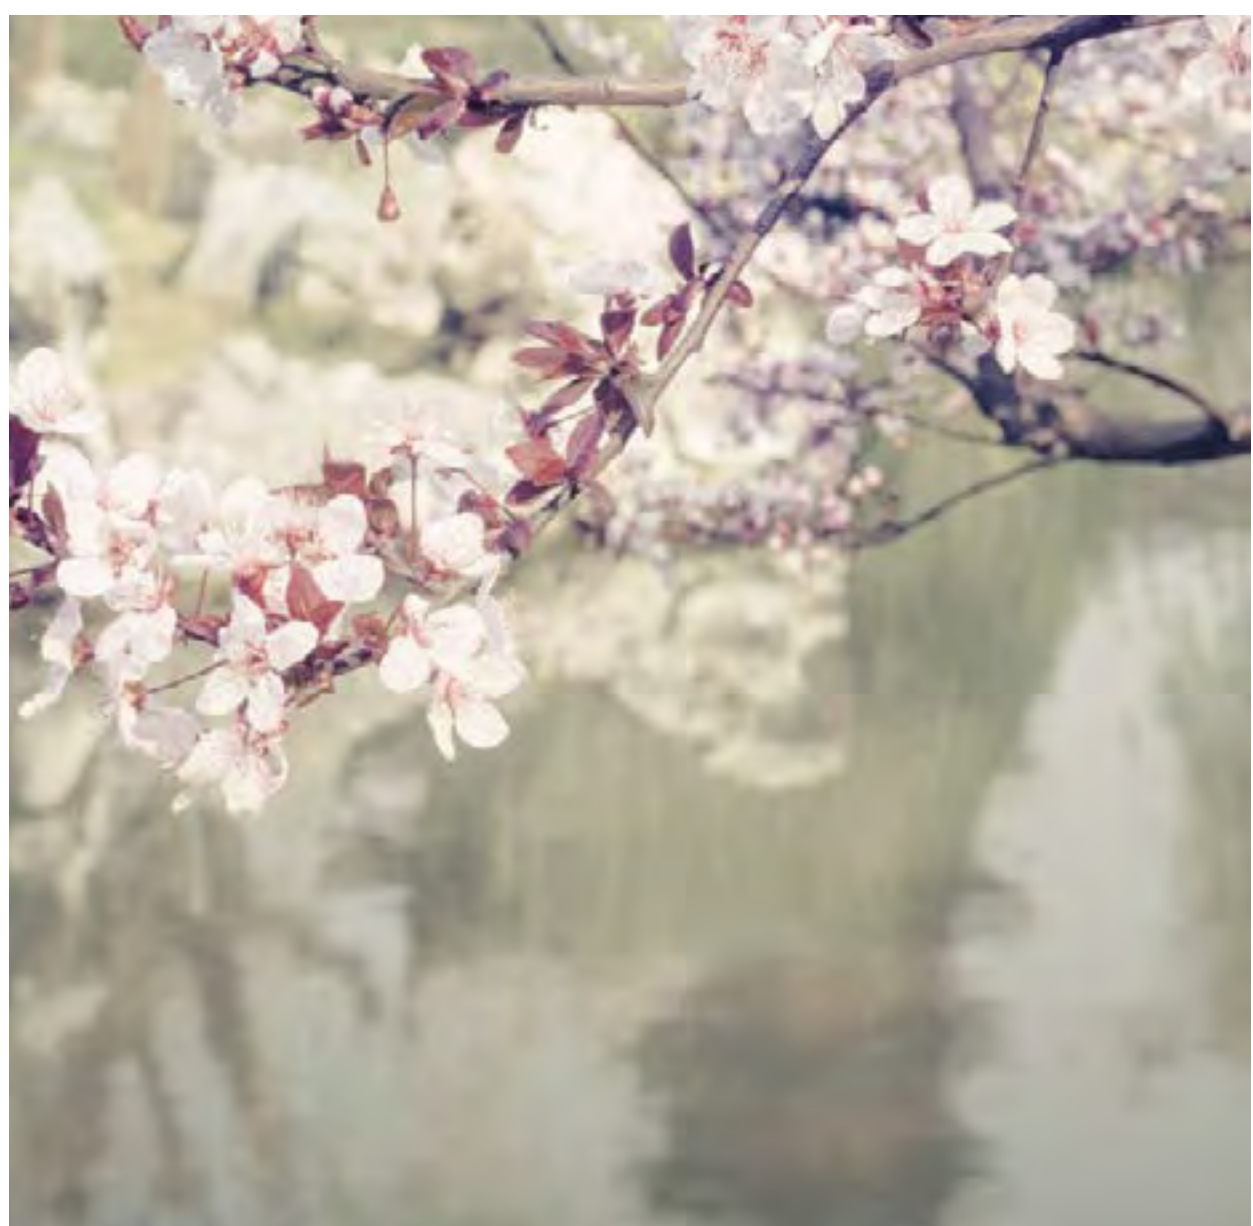

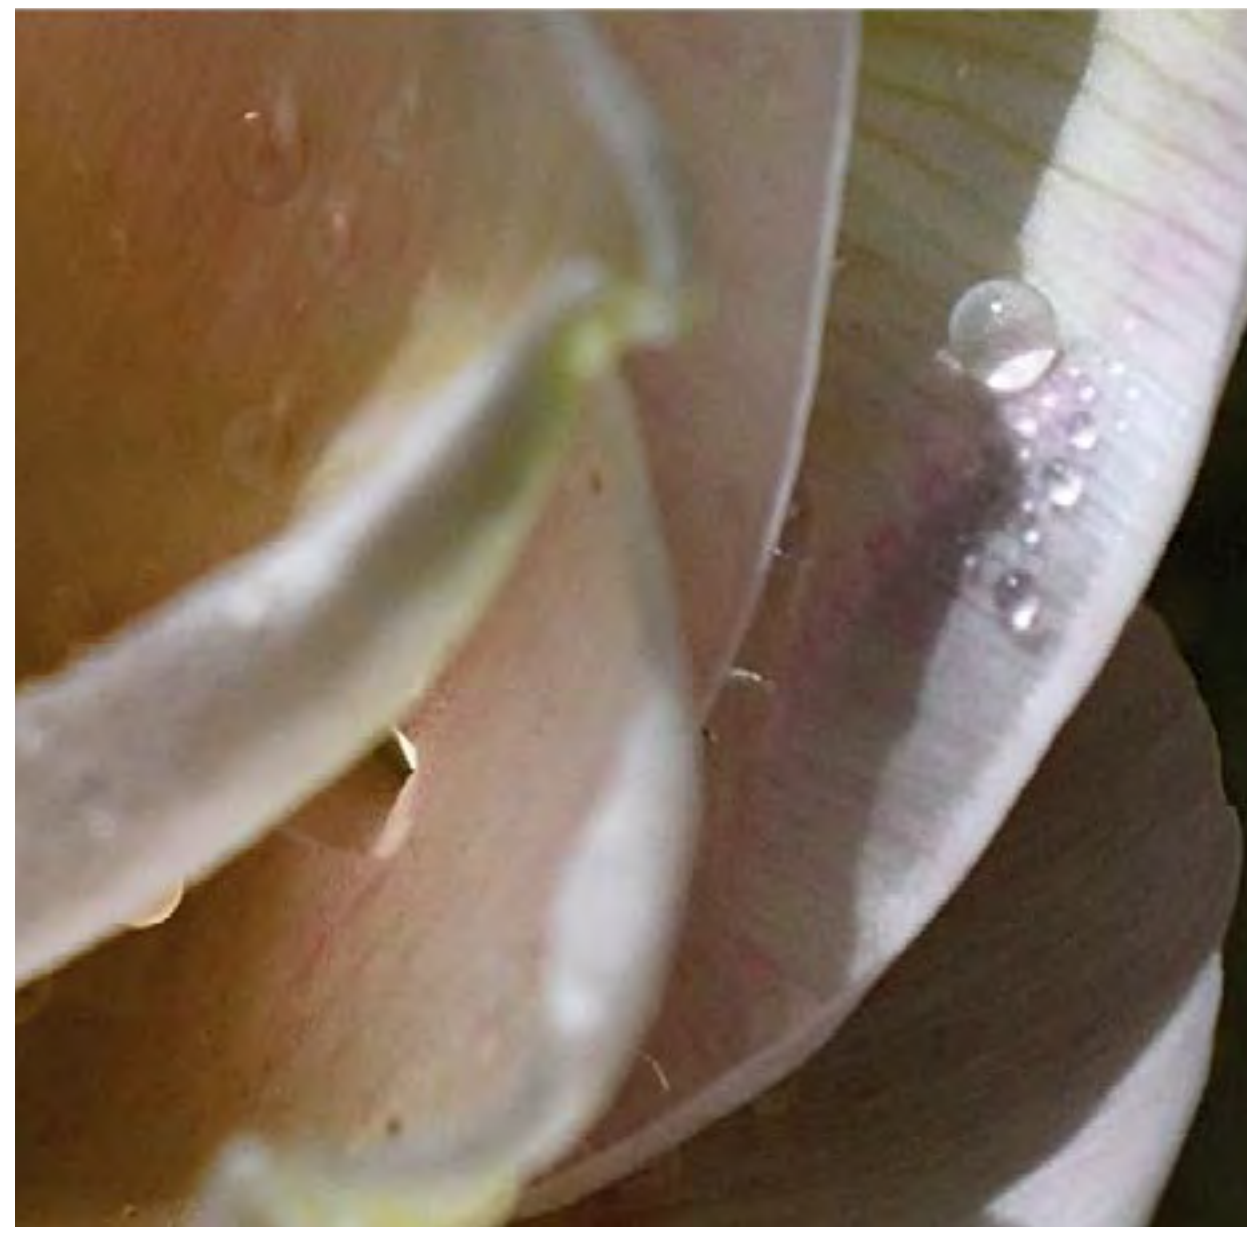

# On Tranquil Ground.

The garden is a work of peaceful design. Each plant and bloom, chosen for its symbolic purpose and intention. Tile and broadloom patterns in fresh colors to mix and coordinate throughout a space. Bold enough to make a statement, subtle enough to build a foundation. Grounded in the healing properties of nature.

COVER: KUSA (CARPET TILE 5T194) IN POND (36300) | INSTALLED QUARTER TURN  
AND BOTAN (CARPET TILE 5T192) IN POND (36300) | INSTALLED MONOLITHIC

A close-up photograph of a Botan flower, showing its large, light-colored petals and a prominent, dark, textured center. Several clear water droplets are visible on the petals, adding a fresh and dewy appearance. The background is dark and out of focus.

# Botan

The royal flower, brings bounty and good fortune, tranquil, brave and bold.

BOTAN (CARPET TILE 5T192) IN POND (36300) | INSTALLED MONOLITHIC

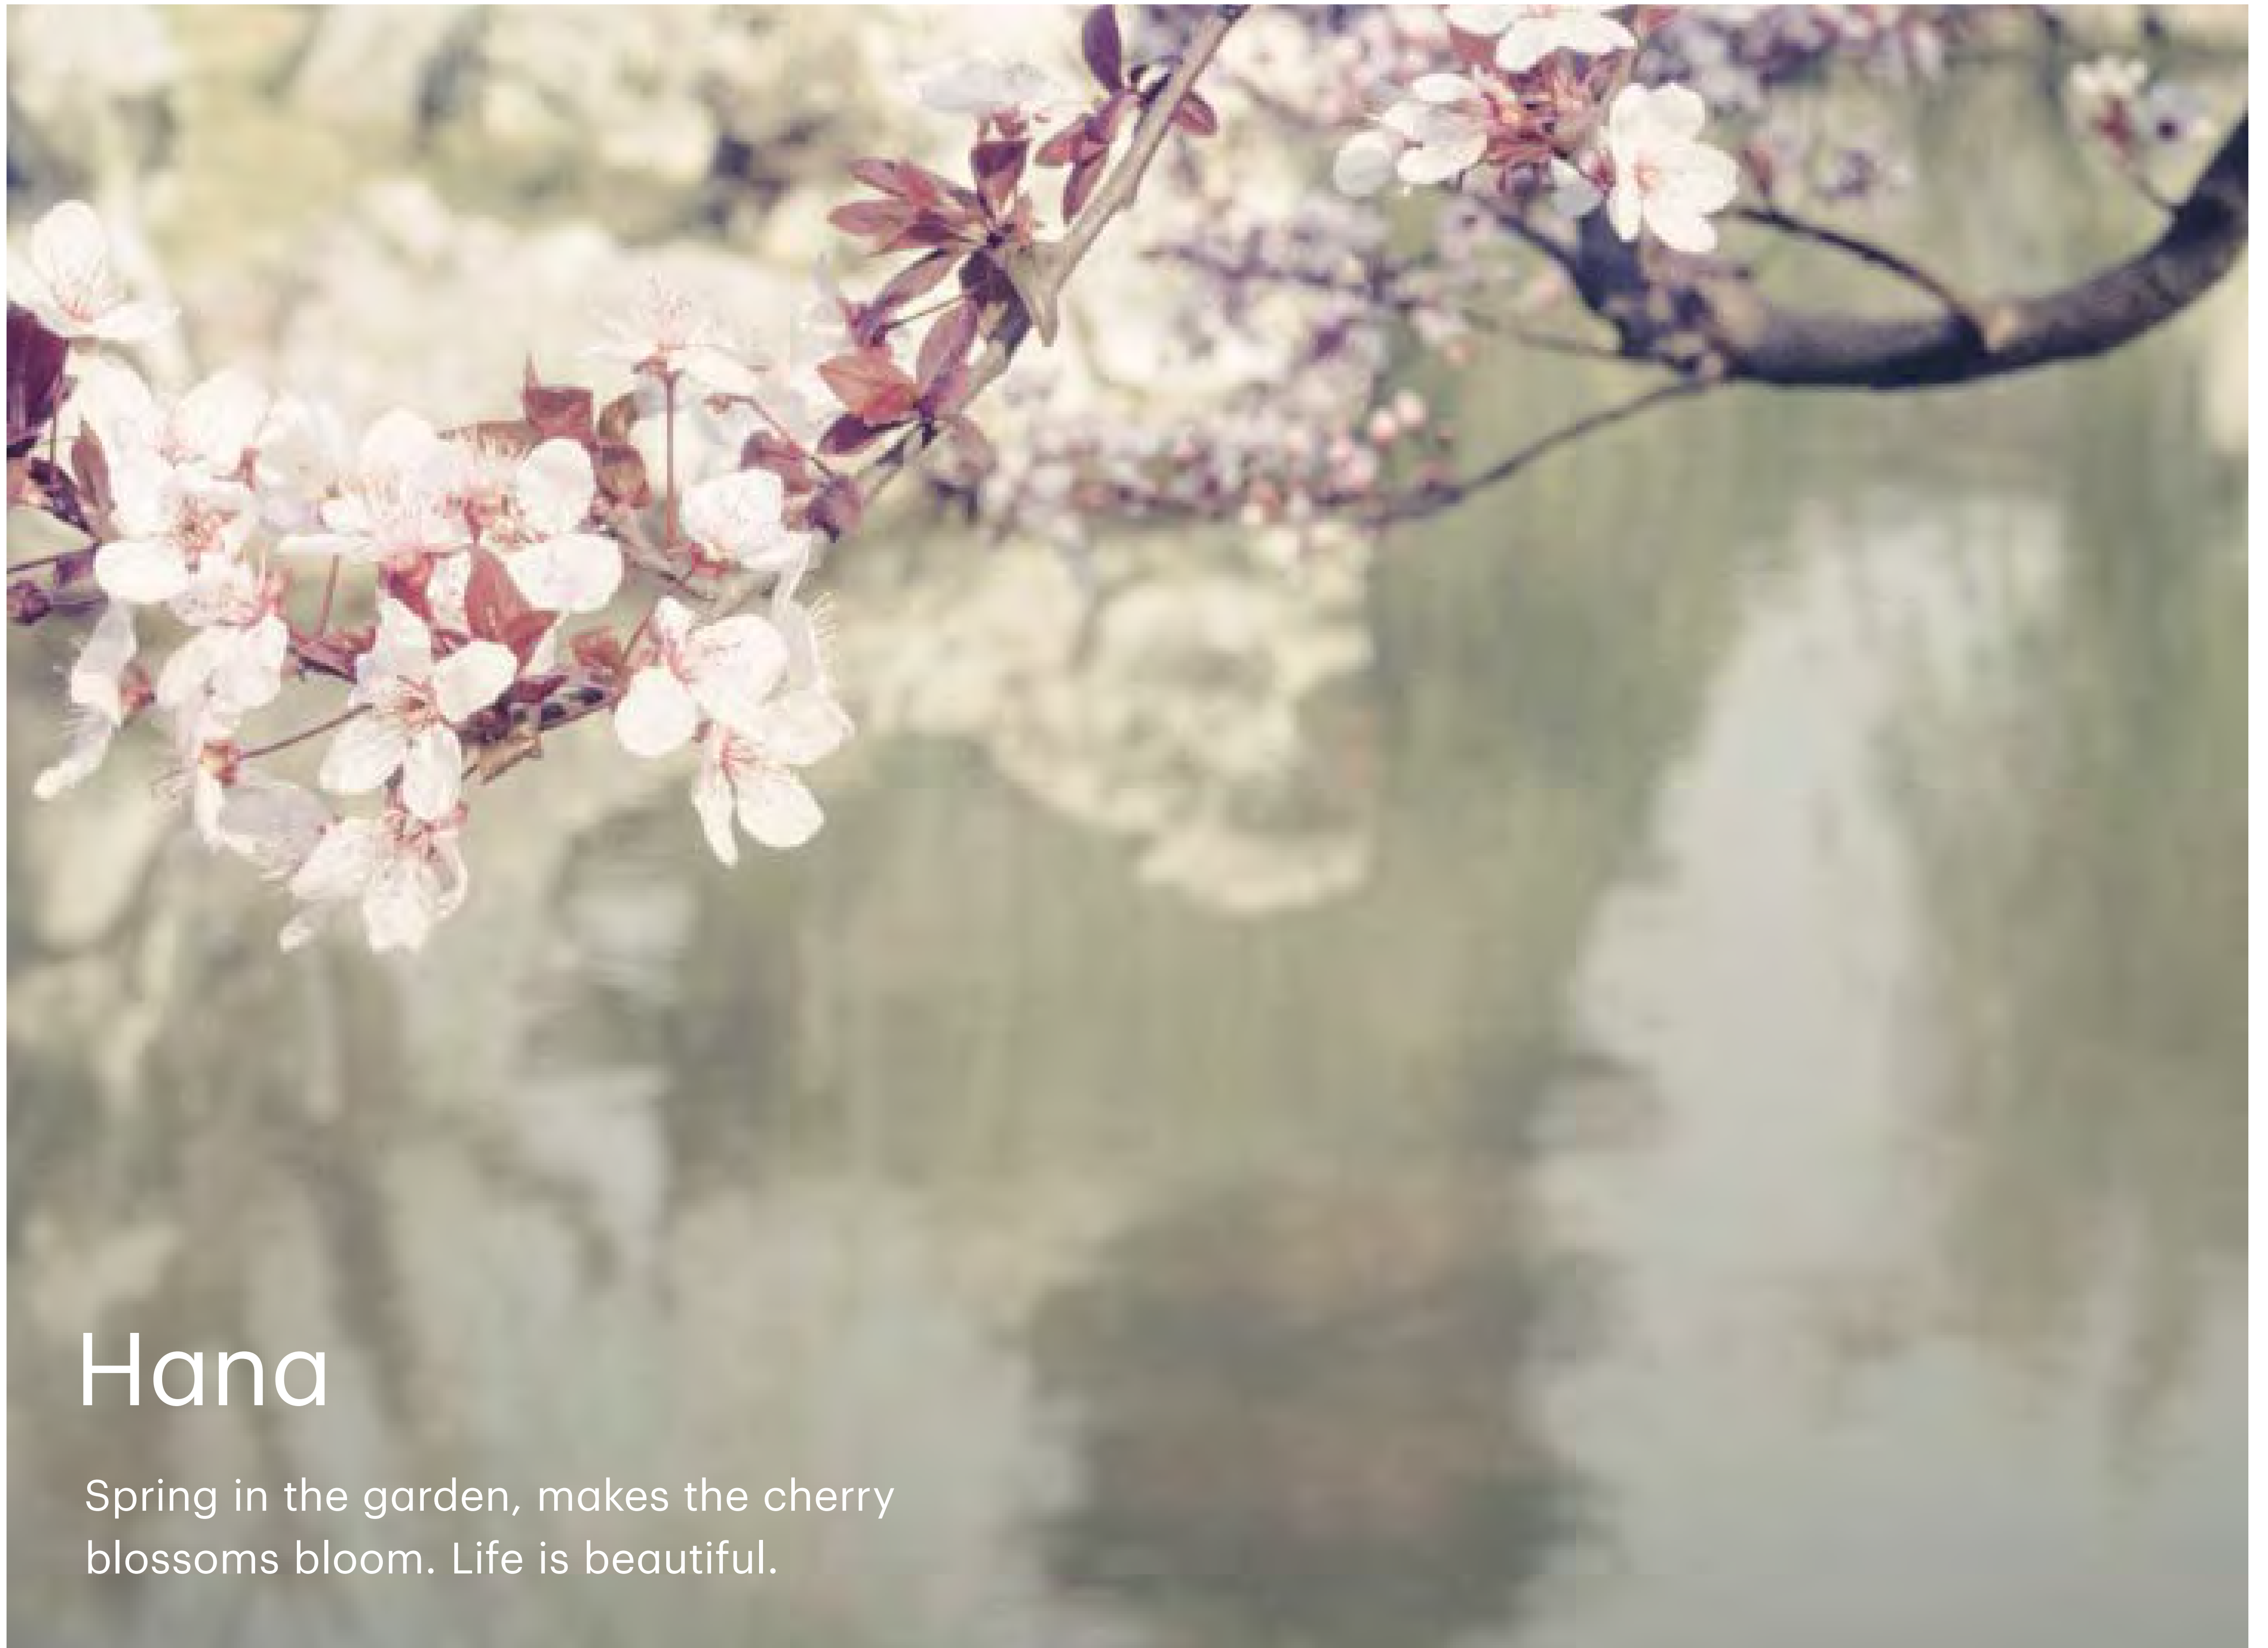

# Hana

Spring in the garden, makes the cherry blossoms bloom. Life is beautiful.

# Kusa

Verdant and robust, symbolic of character, grows hardy and strong.

# Heterogeneous Sheet

Inspired by the healing properties of nature and guided by the principles of evidence-based design, we believe that pleasing color, pattern and texture can have a positive influence on a patient's perception of a space. Fresh colors, subtle metallics and soft textures can make a space feel larger, more relaxing and restorative. We believe the built environment can have an effect on reducing stress and improving patient experience.

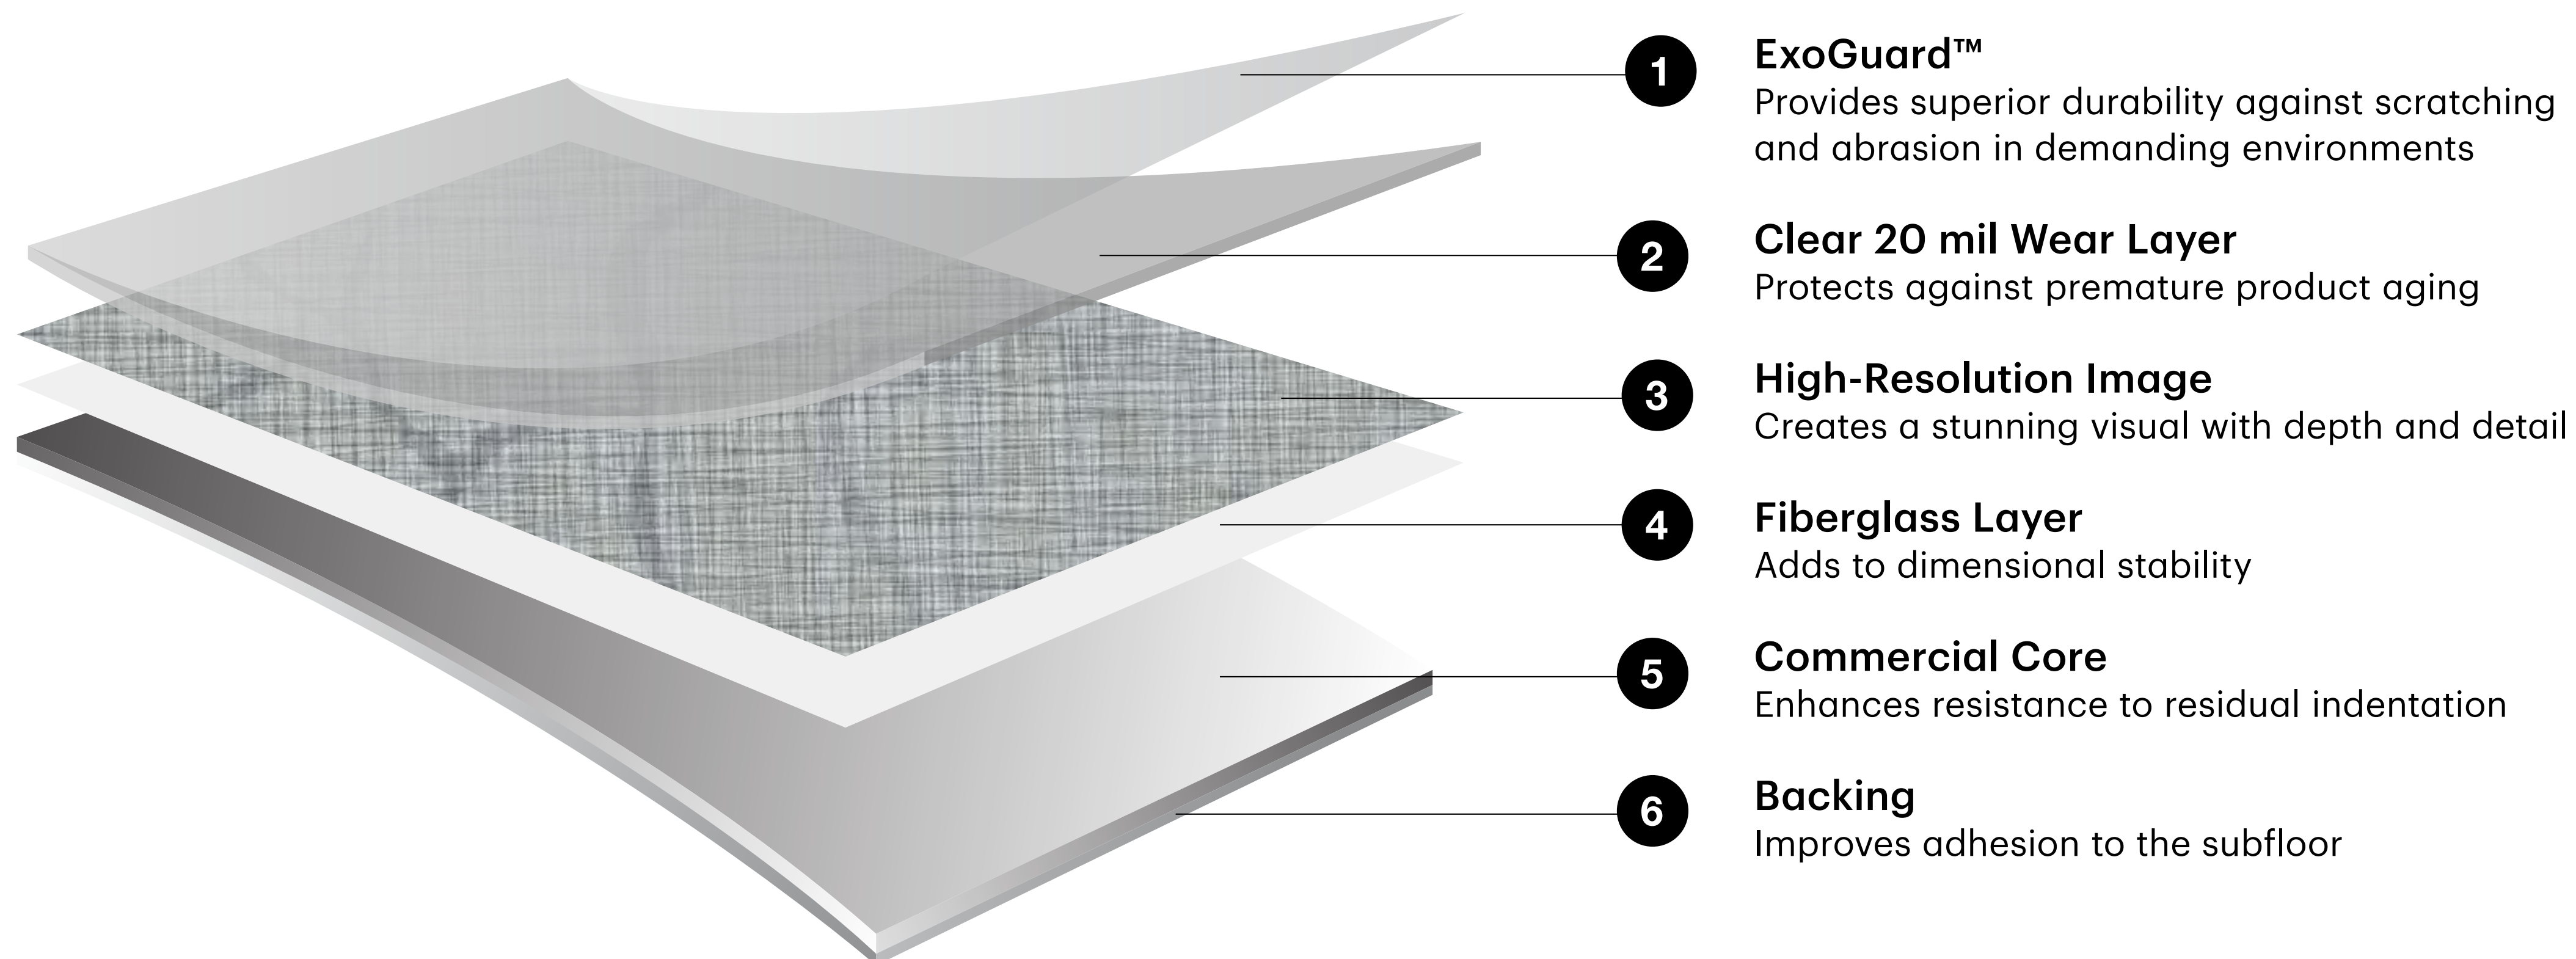

# Layered Durability.

A polish optional ExoGuard™ finish with subtle texture embossing provides durability and ease of maintenance in demanding environments.

Terasu's layered construction is engineered for enhanced durability with a 1500 PSI, added fiberglass for stability and maintenance friendly ExoGuard™ Finish.

# Impact Well-being.

Access to daylight and the use of color and texture can establish the tone for spaces we inhabit. Environments that incorporate natural elements, finishes, and biophilic colors can improve overall well-being.

Drawing inspiration from the patterns and meditative practices of Zen gardens, the soft linework of *Terrace* creates a calming and restorative visual using a nuanced, textured pattern highlighted with metallic accents. The softly rendered lines in a palette of 12 neutrals draw the mind inward.

TERRACE (LVT 4216V) IN DUSK (08504) + ALCOVE (08770) | INSTALLED ASHLAR AND TEXTILE (18X36 CARPET TILE 5T279) IN ANGORA (79596) | INSTALLED MONOLITHIC

# Harmony of Body, Mind and Spirit

On average, people spend approximately 90% of their time indoors, making those environments critical to our well-being. Our products are often at the center of those spaces—underfoot in offices, healthcare settings and classrooms around the world. That is why *Terrace* is FloorScore® certified ensuring healthy indoor air quality with low VOC emissions and manufactured to be ortho-phthalate-free.

# No Transition Strip

Terrace is offered in both 2.5 mm and 5 mm thicknesses that allow for versatility. The 2.5 mm thick profile works alongside a variety of existing resilient collections, including Terasu resilient sheet, ensuring you can transition visuals of similar thicknesses throughout your space. The 5 mm thick profile works alongside carpet tile for smooth transitions throughout your space with no need for a transition strip.

# Ideal for Heavy Commercial Environments

Engineered with a layered construction for enhanced durability, Terrace is designed to perform in high traffic environments. Our ExoGuard+™ high-performance finish enhances long-term appearance through resistance to scratches and scuffs.

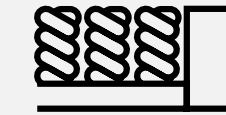

# Why Terrace?

## Superior Durability

ExoGuard+™ advanced topical finish technology delivers the highest performance scratch resistance and resists UV light degradation, hand sanitizers, disinfectants and common stains.

## No Transitions Needed

5 mm LVT can be installed next to most carpet tiles without the need for transition strips.

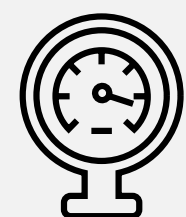

## Polish-Optional Reduces Cost

ExoGuard+™ is a polish-optional finish that can reduce the cost of annual maintenance. If a polished look is desired it requires no coating prep work.

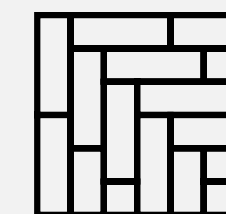

## LEEDv4 Contributions

IEQ – FloorScore® IAQ Certification  
MR – RFCI Industry Average EPD.

## Performs with Static and Rolling Loads

The high PSI tolerance of the product enhances resistance to indentation in areas with heavy static and rolling loads per ASTM test methods.

## Installation Possibilities

A plank format allows for fun and flexible installations, including ashlar, brick, herringbone and stagger. Group two or three planks together for a large format feeling to build scale.

# Coordinating Carpet and Resilient

A part of the **Terasu Collection**, *Terrace* complements carpet and resilient to create cohesive flooring solutions that transition seamlessly from space to space.

Terrace is offered in both 2.5 mm and 5 mm thicknesses that allow for versatility.
