# HOW CAN THE RIGHT PERFORMANCE FIT TRANSFORM YOUR SPACE?

NATURAL STATE in basswood

Natural State resilient is an SPC (Solid Polymer Composite) construction with dimensional stability, no telegraphing and resistance against indentation. Offered in a variety of thicknesses and installations, Natural State also features acoustical benefits making it a solution suitable for a variety of commercial environments.

## NATURAL STATE / CLICK

EXOGUARD+ FINISH LAYER  
enhanced durability, resists scratching,  
staining and scuffing

EXOGUARD FINISH LAYER  
resists scratching, staining and scuffing

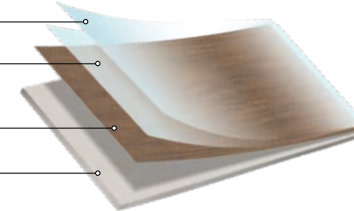

COMMERCIAL WEAR LAYER  
12 mil and 20 mil protects against  
excessive wear

PRINT FILM LAYER  
laminated directly to the SPC core

SPC CORE  
provides stability and prevents  
expansion and contraction

FOAM PAD UNDERLAYMENT  
with added acoustic benefit

## NATURAL STATE / GLUE DOWN

### SOUND INSULATION

**Natural State Click** provides added acoustic benefits from foot traffic and floor-to-floor sound transfer.

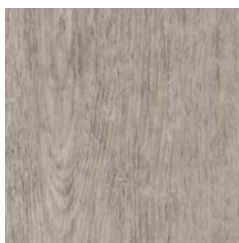

### WATER-PROOF CONSTRUCTION

**Natural State Click** features a solid locking system, providing protection from top-down moisture.

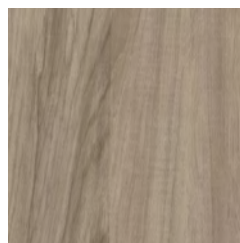

### NO TELEGRAPHING

Both **Natural State Click** and **Glue Down** hides most subfloor imperfections.
