

FREE PLAY

PART I

Durkan's Free Play collection was developed using fundamental elements of the Exquisite Corpse technique created by the Surrealists. Their approach was intended to unlock the imagination and experiment with styles or modes of design that pushed them beyond their routine practices. This unique collaboration showcases the Durkan creative team's design expertise resulting in an inspiring collection of coordinating patterns that pair together in delightfully unexpected ways. As the experimental collaboration unfolded, the designers reveled in the unforeseen patterns that emerged, knowing their creation originated from opening a door to unknown possibilities.
