

# BE BOLD

DESIGN IS FEARLESS

*REJECT COMPROMISE.  
BE DYNAMIC.  
INNOVATE AND LOOK AHEAD.  
TRANSFORM YOUR SPACE.*

To design is to dare. To think big. To be bold. Introducing a collection that mixes pattern, color and texture in a brave new way. Architectural scaffolding, geometric grids, linear stripes, each with a mind of their own.

And each

with a

singularly

*stylish*

statement

to make.

That just so

happens to

end in an

exclamation

point.

**BE BOLD**  
DESIGN IS FEARLESS

# SLIDE

Linear stripes boldly go where few stripes have dared to venture. Straight lines suddenly slide into sharp diagonals, revealing new patterns in the process.

*FORCE AHEAD IN A BRAVE NEW DIRECTION*

## *BEAUTY IS IN THE EYE OF THE BOLDER*

Combine different patterns to create your own dynamic mix. Here, we used a strong linear pattern for the corridor. Turn the corner into a meeting space and suddenly the energy slides up a few unexpected notches.

# STRETCH

Delicate strings stretch across a rigid triangular framework and the result is purely elastic.

REJECT COMPROMISE

## *FLEX YOUR STYLE*

Try an elastic interchange of simple line and complex geometry, expanding and contracting the pattern from room to room. Stretch the boundaries of your creative vision in a way that is as sophisticated as it is playful.

# MORPH

Kinetic, linear shapes morph into fluid forms and optical geometric shapes. Movement this unrestrained could never be confined to a single space. It creates its own dynamic environment wherever it goes.

THROW CAUTION TO THE WIND

# LOOK ALIVE

Create synergy that flows through grand open spaces. The mix of undulating pattern is completely up to you. Vary the tones from dark to light forming a random pattern that marches to the beat of its own drummer.

A bold stroke of geometric genius. Shifting tones of black and white move along a gradient, creating form, motion and a dynamic pattern.

# *SHAPE SHIFTERS*

Create bold tension in public spaces that shift to neutral calm in more intimate areas. A gradient flow from light to dark and back again as it drifts down strident corridors.

# TRANSFORM

Architectural scaffolding transforms to slender, overlapping lines.  
The energy morphs from irregular to regular, from angular to straight.
