# Subtractive Layers

REMOVE / WITHDRAW

REMOVE in brilliant blue / WITHDRAW in barely black

LOOKBOOK

patcraft®

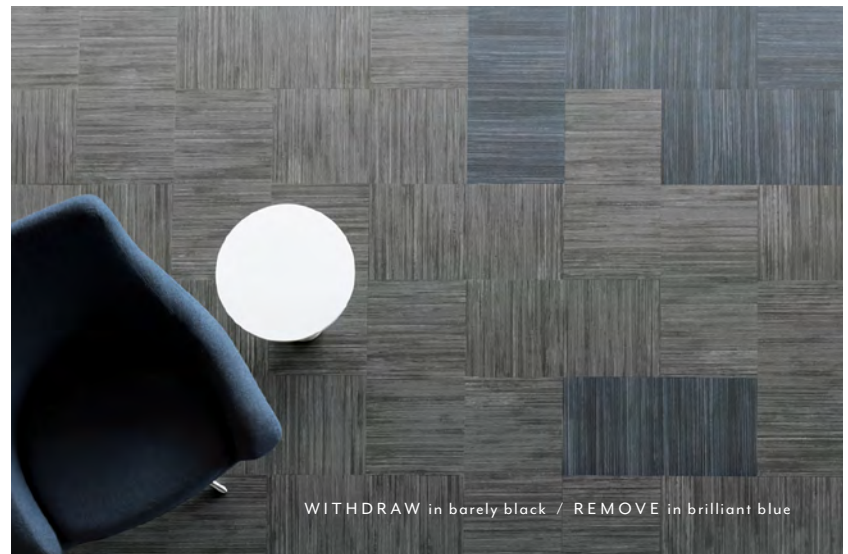

SUBTRACT. *Remove.* UNCOVER.

The Subtractive Layers collection explores absence as an instrument and discovers beauty in taking away. Inspired by a subtractive process that adds dimension by removing material, Subtractive Layers uses foundational methods of art to explore new ground. Paints move across the canvas to give life to a layered, modern texture. Striations of contrast come from removing paint intentionally to create color shifts in individual tiles. This painterly quality adds to its visual, and layered colors are reminiscent of painted canvases. With every subtraction, texture is multiplied, color magnified and composition unified. Add less, reveal more.

BEAUTY REVEALED /

PAINTS MOVE ACROSS THE  
CANVAS, GIVING LIFE TO LAYERED,  
MODERN TEXTURE.

*With paint as a medium and paper board  
as a base, the Patcraft design team explored  
the patterning of negative space and layered  
striations to create the Subtractive Layers  
resilient collection.*
