# EDITO

In a fast-paced, ever-changing world, the workplace of today is constantly shifting and with new technologies and policies arising, employees have the freedom to choose where and how they work. Companies will continue to promote their workspaces and need to engage their employees by providing spaces for better creativity and effective collaboration. Creating vibrant offices and providing flexibility is becoming critical for attracting the best and brightest people. And the Workplace segment is not the only one adapting to major trends. The Hospitality industry is undergoing fundamental changes to best address their guests' expectations and deliver exceptional customer experience. Committed to staying on the leading edge of trends in both segments, Tarkett has designed iD Square, an acoustic loose-lay collection tailored to the specific needs of these markets.

# FLEXIBLE WORKSPACE

By 2020, Generation Y or `Millennials' and Generation Z will comprise more than half of the workforce. They are digital natives, collaborative, adept at multitasking and their attitudes and expectations will have a major impact on the work environment as they are striving for greater autonomy and flexibility. They expect a genuinely agile work ecosystem, with good internet access, where they can work from basically anywhere - co-working spaces, hotel lobbies, unassigned seating areas, individual work spaces or unconventional work spaces ranging from corridors to nooks or crannies. It is vital that these dynamic spaces contribute to productivity, creativity, and health of these employees. Tarkett designers have come up with several exciting and unusual colour and texture combinations that have been adapted for each concept area.

# COLLABORATIVE WORKSPACE

Initially, shared office spaces were typically related to start-ups. This trend has majorly spread over the years to break into almost every organization seeking to stimulate open collective thinking, innovation, and fresh perspectives thus going beyond the cubicle!
From wide open-plan offices that are modular and easily adaptable, to fragmented open concepts where areas are clearly delineated, open spaces naturally allow employees to interact frequently with each other and make the workspace more agile.
Our design team has sought to inject bright and modern materials and textures into these spaces to emanate an appealing and inspired feel.

# CARING WORKSPACE

Today's forward-thinking companies, which advocate employee-centric culture, strive to foster workplace wellbeing and to encourage work-life balance. This trend is on the rise and it should continue its momentum. In an effort to achieve high levels of employee-wellbeing, healthy materials are used by workplace designers to create dynamic work environments for both focused work and restorative activities to make employees feel at home and comfortable.

Human-centered design and innovative furniture such as adjustable workstations or standing desks positively contribute to increased worker productivity and improved overall health.

Tarkett designers have combined different textures and used subtle variations in natural hues to add depth and passion to these spaces and support a Work better live better motto.

# HOSPITALITY

The hospitality industry is ever-changing and with enhanced technology entering the market the global scene is changing faster than ever before. Players become more innovative to provide exceptional experiences hoping to go beyond their guests' high expectations.

Online and iPad check-ins are inducing the front reception areas mutation. Thus, more front desks will be replaced with sit-down digital concierge services and other public areas will shift from business-like spaces to warm and inviting areas. Hotels are also going big on the smart room concept to transform the hotel room experience. Undertaking these changes requires great agility including in the flooring installation process to minimize downtime and reduce costs.

Our designing team aspires to be a part of this story, by offering guests a more unpredictable and personalized experience which is why our designs offer soothing patterns, with cool and warm tones and enhanced with a touch of brass.

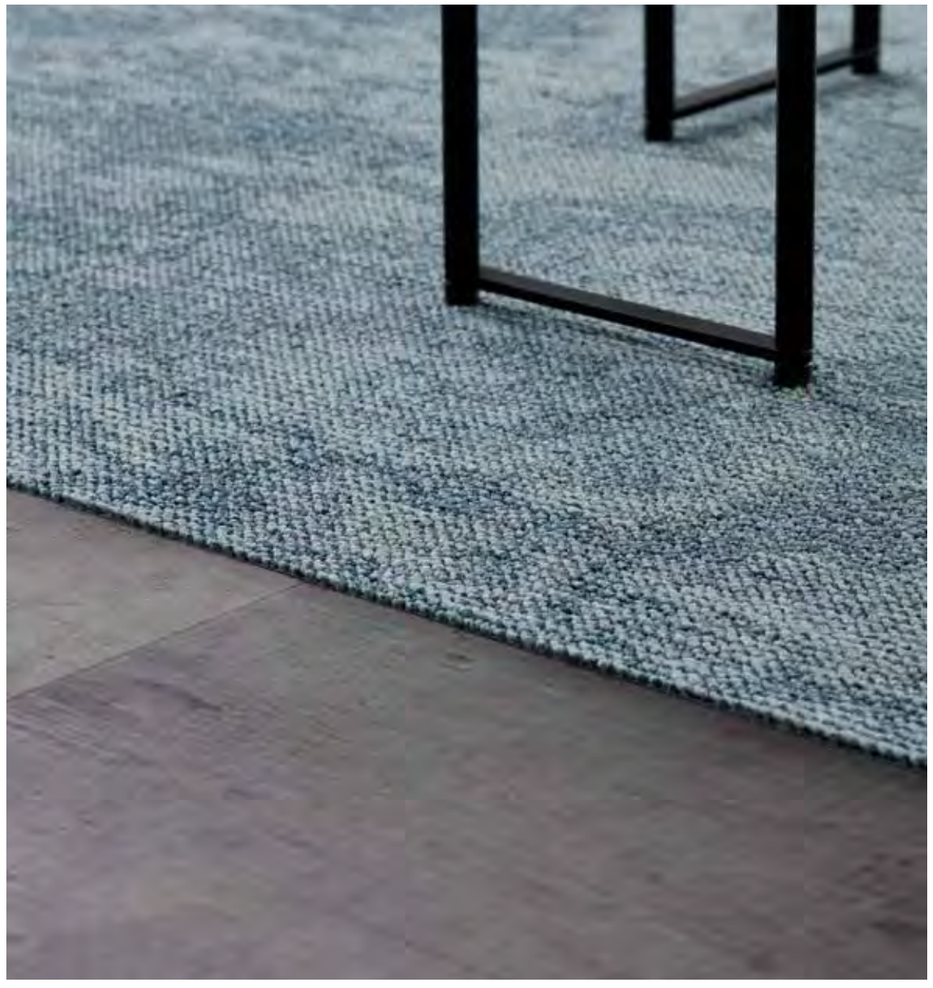
# **MIX WITH CARPET**
# FOR CAPTIVATING INTERIRORS

Creativity is at the heart of good design along with the desire to make a mark. With our Fusion concept, we combine iD Square with DESSO carpet tiles, to create stunning and practical flooring for contemporary spaces. We've designed the iD Square and DESSO carpet tile products in the Fusion collection to work together seamlessly, with no transition strips. For more inspiration and information please visit www.tarkettfusion.com



iD Square flooring and DESSO carpet tile products are simply the perfect fit. The designs and products of Tarkett Fusion have been carefully selected to not only match aesthetically, but also from a functional perspective. The slight difference in height between Fusion Desso Carpet tiles and iD Square (maximum 2,5mm*) allows for a seamless transition with no strips needed.

## Doing Good. Together.

At Tarkett, we believe that together, we can make a positive impact on people and the planet. We strive to make high quality, sustainable flooring to help you create healthier and people-friendly spaces.

We listen to our customers' needs and collaborate with all our stakeholders to design products that deliver optimal performance, promote healthy living and respect natural resources.

### We are designing for life

We recycle waste from our production, transforming it into new, high quality products. In this way, we can contribute to safeguarding the world's natural resources and protecting the environment. iD Square is close to 100% phthalate-free and also showcases very low VOC emissions for optimal indoor air quality. This flooring is also reinforced with Topcean XP™, a UV photo crosslinked polyurethane which permanently suppresses any wax and regenerating operations and allows for easy maintenance (dry cleaning). Through our focus on Cradle to Cradle® design, we make our products in a way that helps to preserve natural resources and mitigate climate change.

### We are closing the loop

We recycle waste from our production, transforming it into new, high quality products. In this way, we can contribute to safeguarding the world's natural resources and protecting the environment, and by closing the loop, shift to a circular economy.

### We're driving collaboration

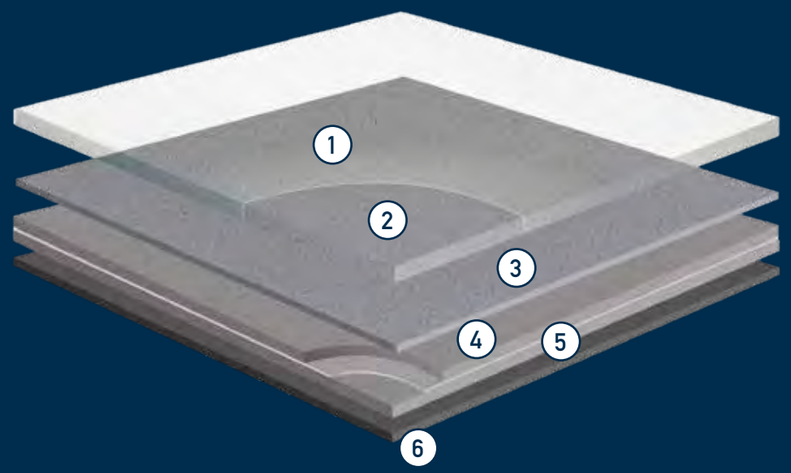
The world's great sustainability challenges require co-operation and partnership across industries and supply chains. We encourage our customers and all our stakeholders to join us in working toward positive change. Importantly, we communicate our sustainability progress transparently, and provide you with clear information about our products and ambitions.

**Doing Good. Together.**

Every day, we strive to improve people's lives,
preserve natural resources and respect our environment.

# DESIGNED TO SAVE YOU
# TIME AND MONEY

Product construction



1

**TopClean XP™ PUR reinforcement**
Wear layer reinforced with a UV photo cross-linked PUR treatment which permanently suppresses any wax and regenerating operations, allows for easy maintenance and extra resistance to scuffs, scratches and stains

2

**0.80mm pure PVC transparent wear layer**
A class leading wear layer for extreme resistance to wear

3

**Decorated compact impregnation**
50 design options

4

**Acoustic layer built with solid homogeneous calandered layers reinforced with non-woven glass fibre**
To help reduce impact noise pollution and ensure excellent resistance to tear and indentation

5

**Non-woven glass fibre layer**
For exceptional dimensional stability preventing the floor from expanding or contracting

6

**Chemical foam backing**
To prevent lateral movements of the flooring

# BRINGING YOU THE ULTIMATE
# ACOUSTIC COMFORT

## BETTER ACOUSTIC COMFORT

Office acoustics contribute to performance and wellbeing in the workplace. iD Square dampens noise level in rooms and reduces sound transmission between floors to 15 dB thus contributing to employees comfort and improving their effectiveness. iD Square is also ideal for commercial projects including hospitality.

## PRACTICALITY AT ITS BEST

Easy to install and just as easy to remove without damaging the substrate. You can have access effortlessly to the technical subfloor and benefit from a very simple maintenance over time. iD Square is very fast and easy to install with minimum floor preparation.

## HIGH QUALITY FOR HIGH TRAFFIC AREAS

Made in Europe and specifically developed for the demanding high traffic environments, iD Square is endowed with one of the thickest wear Layers on the market with 0,8mm. This results in an excellent dimensional stability that ensures a curl-free installation.

## GREAT RESISTANCE

iD Square's hygienic surface treated with UV photo crosslinked polyurethane grants greater durability and allows for easy maintenance and extra resistance to scuffs, scratches, spread of water and stains. It permanently suppresses any wax and regenerating operations. Made in France, iD Square benefits from a 10 year commercial warranty.

## 50 DESIGNS AND 7 FORMATS

iD Square displays an extensive selection of trendy patterns specifically crafted by Tarkett design studio. The designs mimic a variety of textile, artistic, wood and mineral decors, giving the flooring an authentic look.

## MODULARITY

All 50 designs and 7 formats can be mixed together to carry out elegant, creative projects and bring unexpected style to your floor. You can consult our layouts book on pages 40 & 49.
Also, iD Square can be combined with Desso Carpets, thanks to similar thicknesses and matching designs, to create the perfect fit and ensure seamless transitions. This provides you with an exceptionally diverse range and infinite combination possibilities.
Please see pages 60 for all possible format combinations.

## CUSTOMISATION

iD Square offers advanced possibilities of customization including the choice of colour, design and format . Please note that 1000 m² minimum order quantity is required for this category of service.

## ENVIRONMENTAL PERFORMANCE

Health is an important factor in optimizing performance at work. iD Square uses Phthalate-free technology and helps improve indoor air quality with VOC emissions below quantifiable levels, under 10µg/m³ after 28 days.

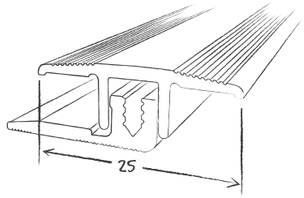
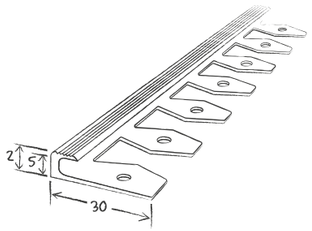
## PROFILE



### TRANSITION PROFILE

Very high traffic aluminium transition profile, to be screwed in

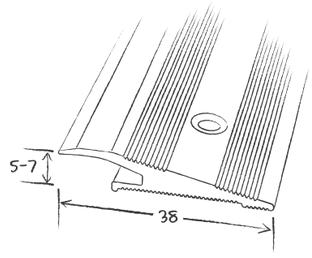
- Silver 1451 011
- Stainless Steel 1451 012
- 10 units of 2.7 lm



### BENDABLE PROFILE

Aluminium stop profile, to be screwed in

- Silver 1456 011
- Stainless Steel 1456 012
- 10 units of 2.5 lm

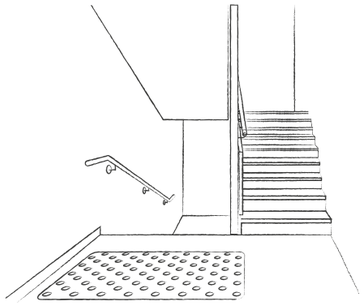


### RAMP PROFILE

Very heavy traffic aluminium profile, to be screwed in

- Silver 1454 011
- Stainless Steel 1454 012
- 10 units of 2.7 lm

## ACCESSIBILITY



### WARNING TILE*

- Helps recognize a change in level, in accordance with regulatory requirements for disabled access and safety
- Self-adhesive or to be glued to the floorcovering (according to product), Format: 800 x 420 x 7mm

1 box of 6 tiles

White 1431 001

Black 1431 002

Light Grey 1431 003

- Self-adhesive rectangular tiles, Format: 815 x 420 x 8mm

1 box of 10 tiles

- Self-adhesive square tiles, Format: 450 x 420 x 8mm

1 box of 10 tiles

White 1440 350 - 1440 450

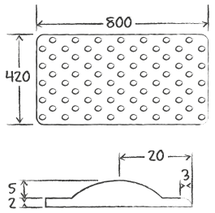
Grey 1440 351 - 1440 451

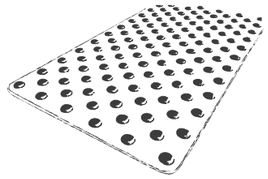
Black 1440 352 - 1440 452

Ivory 1440 353 - 1440 453

Red 1440 354 - 1440 454

Yellow 1440 355 - 1440 455





### EASY KIT 3D STUDS

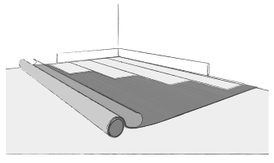
- Accessibility accessory
- Ready-to-use podotactile studs to be simply fitted on top of the existing floorcovering

Grey 1440 551

Black 1440 552

5mm x 22.5mm for a 33 studs kit (8 kits per pack)

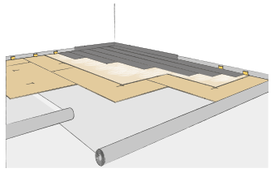
## UNDERLAY



### TARKOMFORT SELF-ADHESIVE

- High-class solution for reducing both impact sound and in-room noise
- Quick and easy-to-install solution
- Environmentally-friendly solution (90% natural raw materials)

Black 24992 040



### JUMPAX ORIGINAL®

- Levels existing subfloor perfectly via a ready-to-use, dual rigid-board floating system
- Reduces noise by up to 21dB Lw
- Provides greater resistance in heavy-traffic areas with its strong, rigid structure

Beige 24993 010

*Caution: the area around the warning tiles will be merged together*

# SPECIFICATIONS

The selected flooring similar to iD Square belongs to EN ISO 10582 / EN 651 Acoustic resilient floor covering manufactured. It is a class 34, heavy commercial traffic, modular resilient with a PVC Wear Layer of 0,8mm.

It is available in several formats and shapes: Tiles of 50 x 50 cm / 66 x 66 cm / 100 x100 cm; Planks of 25 x 100 cm / 20 x 120 cm; Chevron of 20 x 120 cm 20 x 120 cm.

The wear layer of is reinforced with a UV photo crosslinked polyurethane including particles of alumina TopClean XP ™ treatment, which permanently suppresses any wax and regenerating polish spray maintenance operations. It has a static indentation resistance ≤ 0,10mm.

Its emission rate of volatile organic compounds in air is less than 10 µg / m³ (TVOC after 28 days). It is 100% phthalate-free.

iD Square comes with a 10-Year Warranty.
