SMART

FLOR carpet tiles and FLORdots™ (TacTiles®) make our rugs customizable, easy to clean, and a snap to install—and they’re included in every order.

“ We love using FLOR tiles for their flexibility and affordability. The design of FLOR’s options have nailed the balance of residential and commercial design details and work really well in both spaces.

CHRISTINA KERN, CAMPFIRE & CO.

Act For The Future.

Since 1995, the Interface family of brands keeps millions of pounds of carpet out of landfills each year. We're constantly innovating new methods for making rugs that are beautiful, smart, and responsible, from the moment they're woven to the time they're recycled into a beautiful new look.
