 DEFINITY

ONYX

ONYX Collection

ONYX

The ONYX Collection glides along soft silky waves, at times shimmers a soothing calmness, tranquil and immersive. Shifting bands of grey scale fade between onyx black and cloudy accents, encircled indigo blues lift to energize. Carved accents sculpt each rendered form, bridged with plateaus of plush feathered pile and crowned with dense scalloped ribbing.

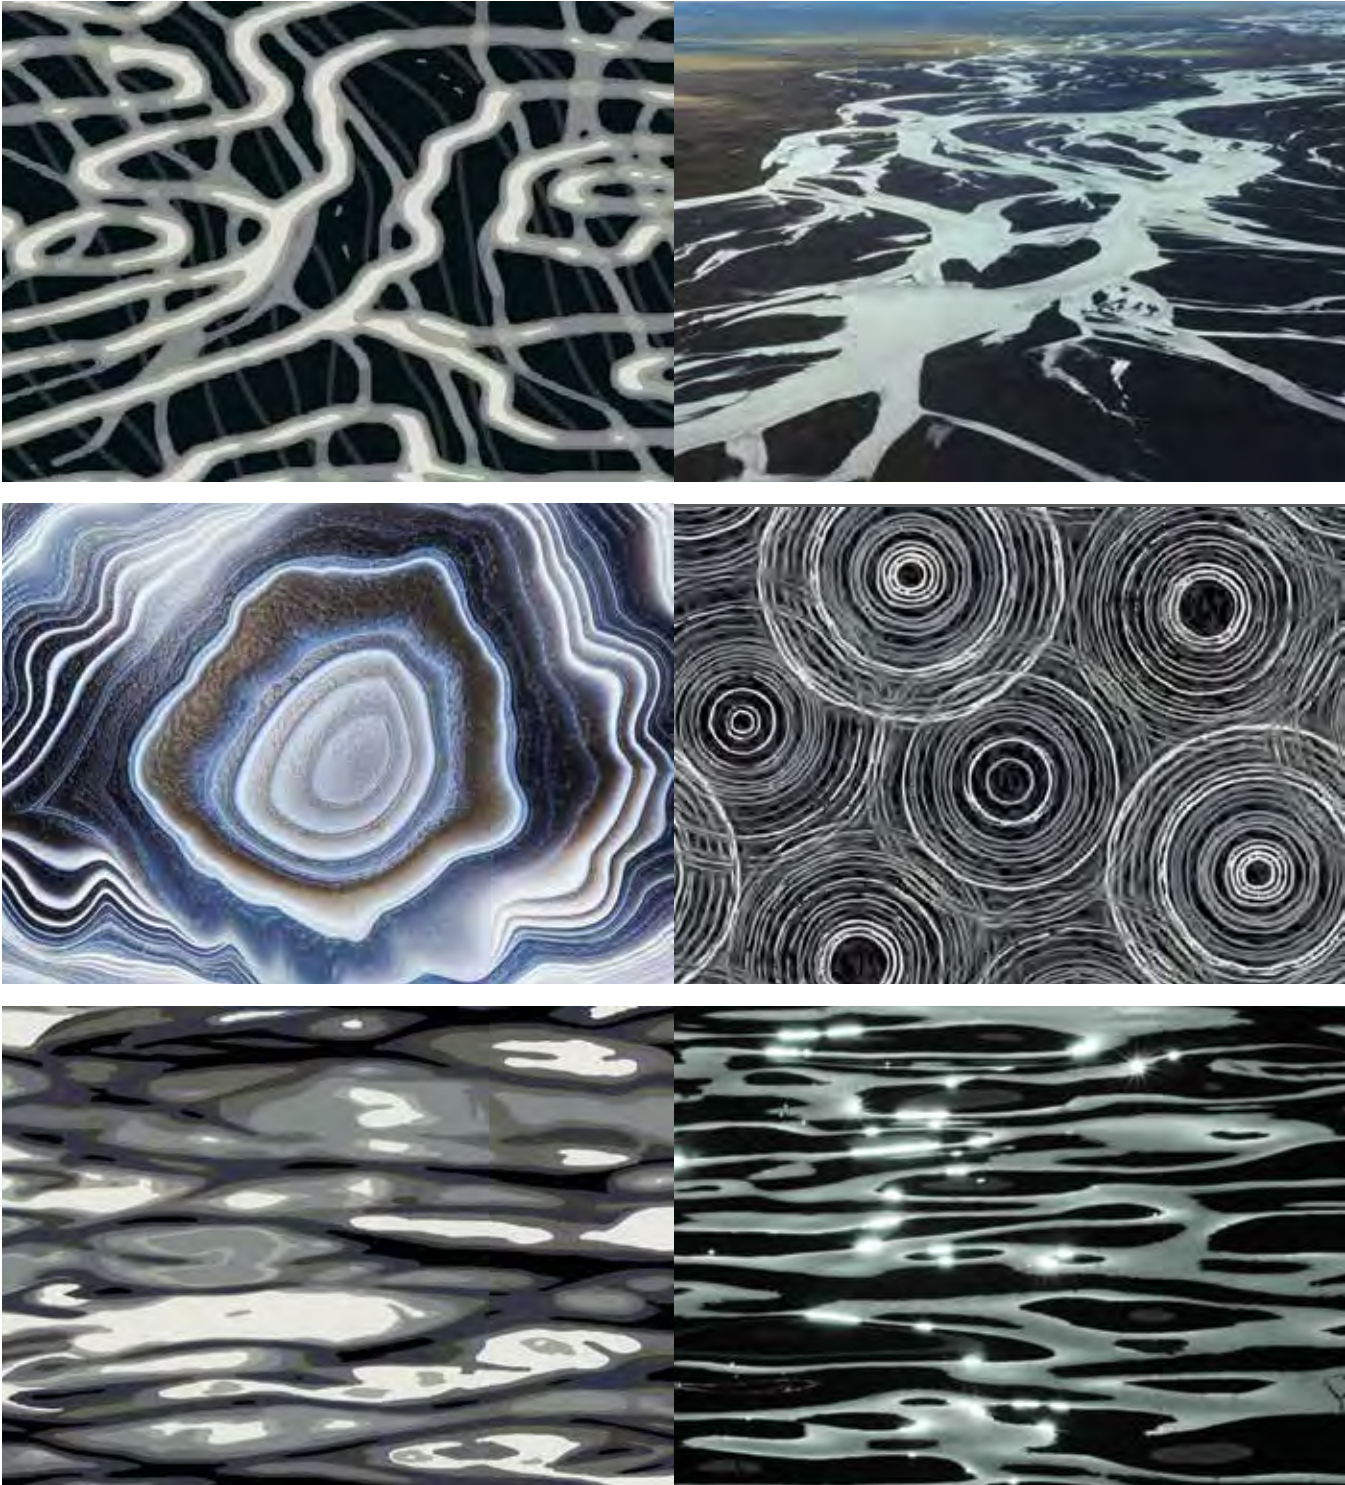

ONYX is featured in Durkan's innovative Definity technology which redefines luxury performance with patterning and textures never before seen in the industry. Enhanced surface detailing provides more than twice the definition of any other high-end hospitality carpet. Durkan's exclusive technology creates precision sculpted dimension for incredible visual and tactile experiences.

Product Guide

Onyx is available in Definity, PDI and CYP constructions. Each product type utilizes a different manufacturing process which can yield variations in color and texture. Please refer to the guide below for specific color information.

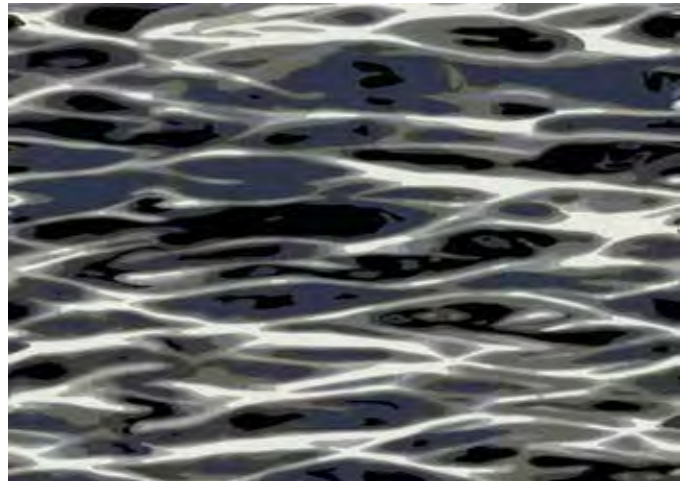

Definity

Durkan's innovative Definity technology is available in up to 12 colors and features our unique precision sculpted technology which explores and emphasizes dimensional effects.

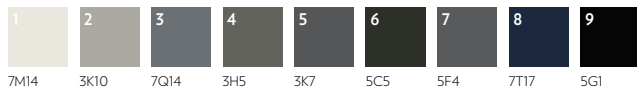

Shown, right and opposite page: QTW49950

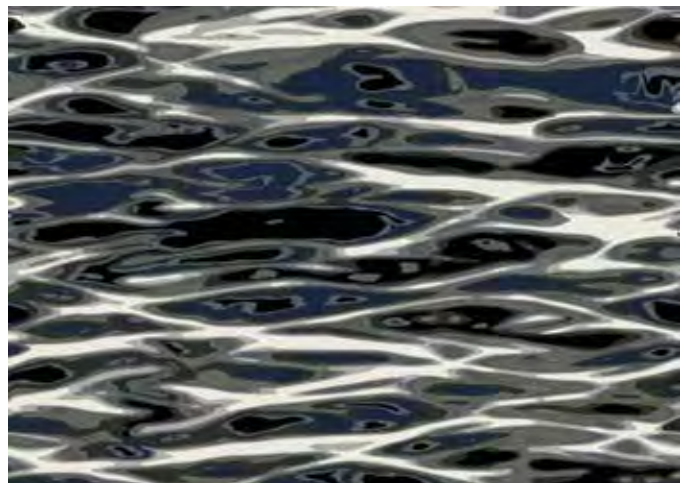

PDI

Durkan's Precision Dye Injected (PDI) construction offers a range of patterns available in 12 colors.

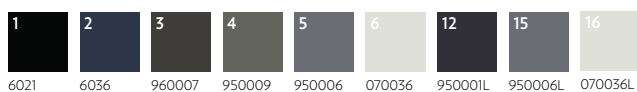

Shown, right: D49972

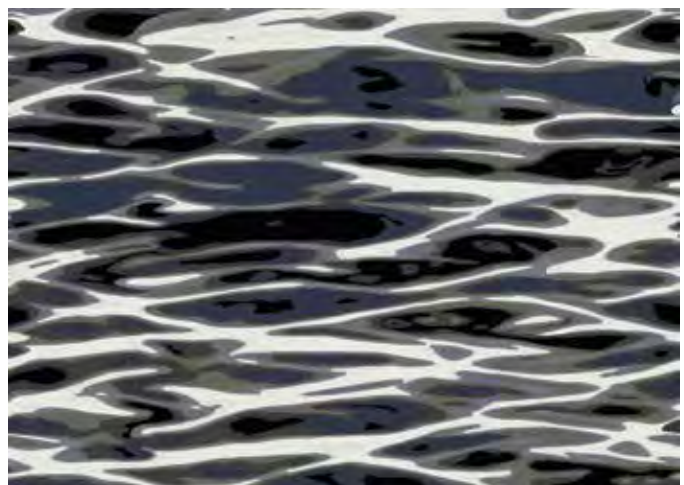

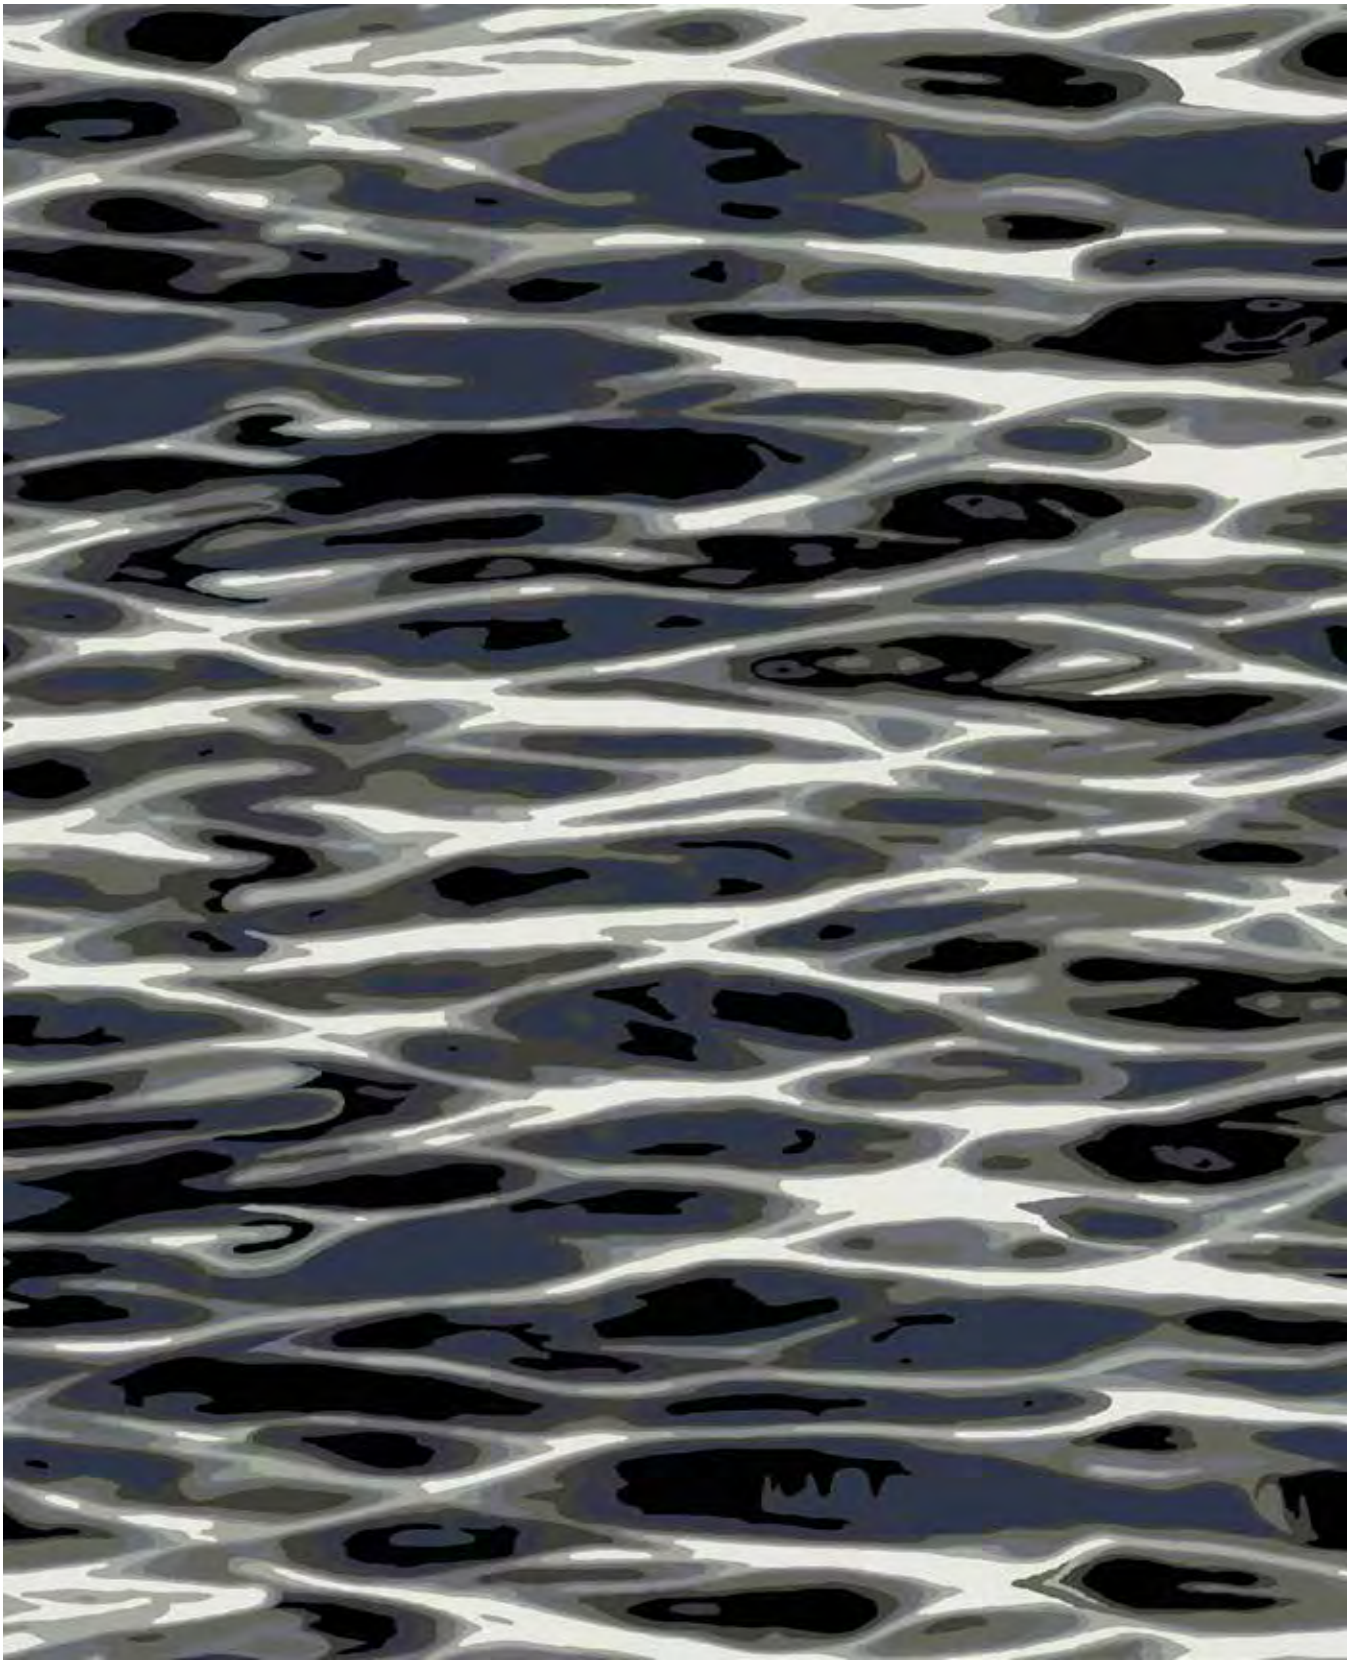

CYP

Durkan's Computer Yarn Placement (CYP) construction offers a range of patterns available in 6 colors.
